SWISS Belly Charter

Reliable quality in extraordinary times

To keep supporting the global supply chain and delivering goods on behalf of our precious customers, Swiss WorldCargo is now offering Charter Flights on its Boeing 777-300ER, Airbus A330-300/A340-300 and Airbus A320 Family aircraft.

The unprecedented effects of the corona virus have caused severe impacts to the global aviation and air cargo industries. As a result, we have also had to adjust our standard Swiss WorldCargo network.

Despite the slowdown in global air travel, we are seeing an ongoing demand for the transportation of goods. Such extraordinary times require extraordinary measures. That's why Swiss WorldCargo is introducing its newly designed solution, Belly Charter. To fulfill all shipping needs, two variations of our new service have been defined: Full Belly and Charter Co-Load.

Why SWISS Belly Charter

Your Benefits

- Extremely short acceptance times
- Flexible routing options
- Customized shipping solutions
- Customized quotes
- Personalized customer service
- Highly-efficient transport and handling processes ensure that your cargo gets to its destination extremely quickly and on time
- Online tracking makes it possible to be informed about the status of your shipment
- Delivery possible all over the world

Full Belly

Full Belly is an entire chartered aircraft and meant for one single customer.

To process a request of Full Belly, the following information are necessary to be provided.

- Customer / Company Name / Contact Details
