ULDs are secured with steel seals.

## Narrow body aircraft

**DKH container** with steel doors used on narrow body aircraft A319/A320/A321.  
ULDs are secured with steel seals.

**DZH container** with steel doors used on narrow body aircraft A319 only.  
ULDs are secured with steel seals.

**VAL boxes** are no official ULDs and are secured with plastic seals. They may be used on all aircraft.

Max. permissible load: 35 kg

Tare: 5 kg

External dimensions: 70 x 46 x 33 cm

Internal dimensions: 61 x 40 x 31 cm

- On flights with a stopover, it is mandatory to use XMP/XKN/DKH units whenever available.
- On A319, if no DKH or AKH is assigned, the VAL shipment must be loaded into DZH container.
- When accepting bookings, please consider that XMP/XKN/DKH containers do not have the same dimensions as the AMP/AVE/AKH containers.
- During bookings, please make sure to ask for dimensions and weight of the shipment in order to be able to assign it to a ULD or VAL box respectively.

We care for your cargo.
