# SWISS °Celsius Passive

## For your temperature-sensitive supply chain

As the market for pharmaceutical and healthcare products continues to grow, Swiss WorldCargo is ready to deliver. With our SWISS °Celsius Passive product, we can offer the storage and the temperature ranges required to ensure that your cool chain preserves the quality of all the products shipped.

Since speed to market is essential for the healthcare industry, air cargo plays an important role in providing handling and storage for temperature-sensitive goods. The challenges for all the parties involved in the supply chain is to keep healthcare products in the temperature range required to preserve product quality. This is well known to Swiss WorldCargo and we continuously deliver our premium Swiss quality to meet our customers' needs.

### Your Benefits

- Choice from the four official IATA temperature ranges: controlled frozen (FRO -20 °C), controlled cool (COL +2 °C to +8 °C), controlled room temperature (CRT +15 °C to 25 °C) and controlled extended room temperature (ERT +2 °C to +25 °C) as well as ambient storage
- Standardized processes ensure that your cargo is stored as fast as possible in the temperature environment required
- Swiss WorldCargo is a CEIV pharma-certified organization worldwide
- Pharma capability tool on [swissworldcargo.com](http://swissworldcargo.com)

### Our Hub

- Our hub is GDP-compliant (Swissmedic) and IATA CEIV pharma-certified
- Limited exposure to outside conditions thanks to extremely short distances between aircraft position and warehouse at our hub Zurich
- Swiss WorldCargo's Hub Control Center ensures the smooth, reliable and flexible handling of shipments
- Four different controlled storage possibilities (FRO, COL, CRT and ERT) in addition to ambient storage

### Our Product

- Range of storage options, i.e. controlled frozen storage (FRO), controlled cool storage (COL), controlled room temperature storage (CRT), controlled extended room temperature storage (ERT) and ambient storage
- A global network of selected audited stations
- Thermo truck network available
- Skilled and trained personnel worldwide
- Uniform handling and quality standards worldwide
- Dangerous goods accepted (local restrictions and IATA DG regulations apply)
- Integrated online consignment tracking system
- Combinable with our fast SWISS X-Presso solution or our reliable SWISS General Cargo service
