We care for your cargo.

SWISS Mail

For your international mail exchange

SWISS Mail is the solution for your mail deliveries. As the air-mail parcel business continues to grow, major postal organizations are already prominently active in this high-potential business sector, and are busy ensuring greater vertical integration and control over their operational processes. Swiss WorldCargo works closely with these organizations to ensure efficiency in their shipments and mail transfer times, and is able to offer close collaborations with its customers and a global range of destinations for all shipments. Through our active membership of the Airmail Board, the IATA UPU Contact Committee and IPC, we also ensure that we play an active part in the future developments of the industry, and can remain ahead.

SWISS Mail also helps organizations succeed in their shipments, be it through integrated international Express Mail Services (EMS), Priority Mail (Airmail) or Non-Priority Mail (S.A.L.). Speed, however, remains our clear focus. And with quick transfer times and preferred capacity access, SWISS Mail is the right solution to ensure that all your mail shipping needs are handled with care.

Your Benefits

- Mail scanning worldwide for status updates using the latest EDI messaging standards
- Long-term customer agreements
- Dedicated mail capacity allotments

Our Hub

- Unique transfer times of 120 minutes at Zurich and Geneva airports, enabling you to meet your delivery requirements
