SWISS °Celsius Passive Solutions

For your door-to-door temperature-sensitive shipments

Swiss WorldCargo understands your business needs of keeping healthcare products within a required temperature range, ensuring an uninterrupted cool chain and preserving the quality of your goods.

That's why we offer a unique advanced and high-performance passive solution that simplifies handling and door-to-door shipping. The specially-developed containers that are part of our offer are delivered fully preconditioned and ready to use by the shipper for one-way rentals. This ensures uninterrupted-cool-chain door-to-door deliveries, even to destinations with limited 'to-door' facilities.

Your Benefits

- Partnership agreement with va-Q-tec
- Standardized processes ensure that your cargo is stored as fast as possible in the temperature environment required
- An uninterrupted cool chain is ensured door-to-door - even to destinations with limited 'to-door' facilities
- Swiss WorldCargo is a CEIV pharma-certified organization worldwide
- Pharma capability tool on swissworldcargo.com

Our Hub

- Our hub is GDP-compliant (Swissmedic) and IATA CEIV pharma-certified
- Limited exposure to outside conditions thanks to extremely short distances between aircraft position and warehouse at our Zurich hub
- Swiss WorldCargo's Hub Control Center ensures the smooth, reliable and flexible handling of shipments
- Three different controlled storage possibilities (COL, CRT and ERT) in addition to ambient storage

Our Product

- SWISS °Celsius Passive Solution containers are delivered quality-checked and preconditioned by va-Q-tec to the shipper's and forwarder's facility
- One-way rentals throughout the Swiss WorldCargo network
- Temperature ranges between -60 °C and +25 °C according to the customer's needs
- Extended product duration by storage in a temperature-controlled environment (CRT or COL or ERT)
- Quality control via check sheet at the airport of departure, transfer and arrival
- A global network of selected audited stations
- Thermo truck network available
- Skilled and trained personnel worldwide
- Uniform handling and quality standards worldwide
- Dangerous goods accepted (local restrictions and IATA DG regulations apply)
- Integrated online consignment tracking system
